ANGELICA
NURSERIES

Growers of Fine Plants

FALL 1958

SPRING 1959

Mohnton R. D. 1, Pa.

Phone Reading SP 7-3831

Introduction

Once again it is our pleasure to present you with a copy of our new wholesale list.

In our unending efforts to serve you we are continuously seeking and practicing better methods of production. This, we believe, you will find reflected in our list. We are now operating 500 acres which enables us to offer great quantities of small landscape and cash-and-carry size material as well as heavier specimen stock. Our supply of broadleaves: items such as *Ilex Opaca*, *Aquifolium* and *Crenatas*; *Pieris* and hybrid *Rhododendron* in particular; are in good supply, of excellent quality, and we have been able to lower prices on many items. Proof of our every effort continuously directed toward developing and growing good heavy plant material offered at the lowest possible price and to merit your confidence and good will. Your patronage makes this possible and we wish to express our appreciation with a most hearty thank you.

You are most cordially invited to visit our nurseries and inspect our acreage of plant materials. Our nurseries and office are located on Route 73, three miles south of Reading, Pa. at the village of Angelica. In addition we now operate, for the past three years, a new farm on the Eastern Shore of Maryland.

Yours sincerely,

ANGELICA NURSERIES

Thomas J. Kohl, Jr., Owner

Member:

American Association of Nurserymen
Pennsylvania Nurserymen's Association
American Rhododendron Society
Holly Society of America

Terms and Conditions

This list cancels all previous quotations and prices listed herein are subject to change without notice. Material offered subject to prior sale.

All prices are f.o.b. our nurseries.

QUANTITIES: Field Plants—5 to 24 at 10 rate, 25 and more at 100 rate except as otherwise stated. Less than 5 plants of a kind and size—50c additional per plant.

All stock when especially selected in the nursery will be sold at prices commensurate with the values of the specimens chosen.

Terms: Deposit required on all orders to be held more than 60 days. Cash in advance unless satisfactory arrangement is made when orders are placed. 2% discount allowed. To those establishing accounts with us terms are 2% 10 days, net 30 days. Interest at 6% per annum to be paid after maturity.

Plants become your property upon delivery to carrier and we cannot be responsible for loss, damage, or delay in transit.

We express or imply no warranty as to productiveness or life of stock. We assume no liability for delay or failure in filling orders due to strikes, accidents, crop failures or other causes beyond our control. It is mutually agreed that our liability for untrueness to name is confined to free replacement or refund of purchase price.

Claims must be made in writing within five days of receipt of goods.

All orders are based on the distinct understanding that the purchaser agrees to the conditions of sale as stated above.

Delivery Service

We can quite often arrange to deliver full trailer load orders with our own 32' closed van, for which a reasonable charge is made. If possible, less than trailer loads are combined with orders consigned to a certain locality and will bring a small additional charge to the customer over full trailer load delivery to one destination.

Delivery charges are always net, due and payable on delivery.

WHEN PICKING UP STOCK WITH YOUR TRUCK please be sure to send a tarpaulin or suitable covering to protect your plants from drying out on the road. We will supply labor to load your truck and during the busy planting season can arrange to load your truck in the evening or Sundays if necessary.

Broadleaf Evergreens

36-42 in.	5.50	5.00

EUONYMOUS

Patens (sieboldianus) Evergreen. Vigorous. Profuse in flower and pink fruit. Good in dense shade.

18-24 in. heavy	2.75	2.25
24-30 in. heavy	3.25	2.75

Vegetus (Big Leaf Wintercreeper) Low, spreading evergreen. Scarlet fruit.

12-15 in.	1.25	1.00
15-18 in.	1.50	1.25

Field of Ilex Convexa

ILEX (holly)

This year in particular we have exceptionally fine blocks of Ilex Crenatas. Plants are well sheared, have good color and are perfectly hardy as we have tested them over a period of years under some of the most adverse conditions. Volume production enables us to make these items exceptionally good buys.

Convexa (Bullata) (Convexleaf holly) Slow growing; small, glossy, boxwood-like leaves.
